Enrolling in SeeChange Health does not guarantee services by a particular provider on this list. If you wish to be certain of receiving care from a specific provider listed, you should contact SeeChange Health Member Service to ask whether or not the provider is still a SeeChange Health provider, and you should contact that provider to see whether or not they are accepting additional patients. You can reach SeeChange Health Member Service at (888) 866-8733.

It is the policy of SeeChange Health and its affiliates to treat all persons alike, without distinctions based on race, color, creed, religion, national origin, gender, marital status, status with regard to public assistance, disability, sexual orientation, age or any other classification protected by law.

“SeeChange Health” refers to the family of health plan businesses that includes SeeChange Health Insurance Company, SeeChange Health and HealthInsight.

WELCOME TO THE SEECHANGE HEALTH PPO PRODUCT

We are excited that you have selected SeeChange Health.

The SeeChange Health plan allows you to choose your own doctors and hospitals for all your health care needs; and take advantage of significant cost savings when you use doctors contracted with us.

Like most PPO plans, we offer two different ways to access care:

- Network, meaning you choose a doctor (or hospital) contracted with us.
- Non-network, meaning you choose a doctor (or hospital) not contracted with us.

Your choice of doctors and hospitals may determine which services will be covered, as well as how much you will pay*. In some instances, certification is required for full benefits (see the *Schedule of Benefits*).

To maximize the benefits received under this SeeChange Health PPO insurance plan, you must use Preferred Providers.

HOW DO I USE THIS PROVIDER DIRECTORY?

This provider directory lists **SeeChange Health preferred** network providers: the physicians, clinics and hospitals.

You can use this directory to select a primary care doctor for yourself and for each member of your family who is covered under your SeeChange Health PPO plan.

Enrolling in SeeChange Health does not guarantee services by a particular provider on this list. If you wish to be certain of receiving care from a specific provider listed, you should contact SeeChange Health Member Service to ask whether or not the provider is still a SeeChange Health provider, and you should contact that provider to see whether or not they are accepting additional patients. You can reach SeeChange Health Member Service at [\(888\) 866-8733](tel:8888668733).

In addition, providers are added to the SeeChange Health network regularly, and this directory may not include these additions. Again, we recommend you call SeeChange Health Member Service to verify that your provider is currently part of the SeeChange Health network.

SOME TERMS YOU SHOULD KNOW

Provider

A physician, clinic, hospital, pharmacy or other health care professional or facility that is licensed, certified or otherwise qualified under state law to provide health care services.

Specialist

A provider whose medical specialty is not in the field of family/general practice, internal medicine or pediatrics.

Network Provider

A network provider (such as a hospital or physician) that has a contract with SeeChange Health to provide medical services to SeeChange members.

Non-Network Provider

A provider that is not a SeeChange Health network provider. You may receive health services from a non-network provider, but generally at a lower coverage level. (For more information, see your Schedule of Benefits document.)

Urgent care center

A health care facility whose primary purpose is to offer and provide immediate, short-term medical care for minor medical conditions. Urgent care centers may be free standing or located in a clinic, facility or hospital. Although they may be located in a hospital, an urgent care center is different than a hospital emergency room, which provides immediate care for life-threatening illnesses or injuries.

Emergency

A condition that requires immediate treatment to:

1. prevent serious impairment to your bodily function, organs, or parts; or
2. prevent placing your physical or mental health in serious jeopardy.

Urgent Care Center or Emergency Room?

Do you know where to go for medical care after your doctor's office has closed for the night or weekend?

Many people drive straight to a hospital emergency room. In many cases, however, they could save themselves a lot of time and money by going to an urgent care center instead.

If your medical condition is not serious, you may have to wait a long time for care at an emergency room. Also, your share of what you must pay the hospital will be much higher.

Urgent care centers are not intended for routine medical visits, which can be scheduled and provided by your primary care clinic. They are usually open after 5 p.m., Monday through Friday, and on weekends and holidays – the times when you doctor's office is most likely to be closed. Many are also open during daytime hours.

Urgent care centers commonly treat:

- minor injuries and cuts;
- upper respiratory infections/sore throats;
- children's ear infections, and
- fractures and sprains.

If your condition requires emergency medical treatment, go to an emergency room right away or call 911.

How to choose a primary care physician

We believe you will benefit from establishing a long-term, one-on-one relationship with a primary care physician within your primary care clinic. Here are the three most common types of primary care physicians:

- ***Family practice physicians.*** These doctors specialize in taking care of the general health needs of people of all ages, from infancy through adulthood. They are trained in six broad areas of medicine—pediatrics, internal medicine, surgery, obstetrics and gynecology, psychiatry and community medicine.
- ***Internists.*** These doctors specialize in the diagnosis and treatment of diseases in adults. They do not perform surgery, deliver babies or treat children.
- ***Pediatricians.*** These doctors specialize in taking care of the general health needs of children, from birth through approximately age 16.

When selecting a primary care physician, you should consider the following:

The doctor's training and experience.

Ask the physician where he or she studied and how long he or she trained. You may also obtain information on the professional qualifications of primary and specialty providers, such as medical school attended, residency completed or board certification, by calling the care system, primary care clinic or the following numbers:

- *The Medical Board of California at 916-263-2382 or online at <http://www.medbd.ca.gov/lookup.html>*
- *The American Board of Medical Specialists at 1-866-275-2267*

The doctor's accessibility.

You want your doctor to be available when needed. Find out the office hours for his or her clinic. Call the clinic and find out how long it takes to schedule a routine visit with the doctor. Also, ask who covers for the doctor when he or she is out of town.

The doctor's approach to preventive medicine.

You want a doctor who emphasizes staying healthy. Note whether the doctor asks you about your eating, exercising, smoking and alcohol consumption, as well as about any health risks you may be exposed to on the job or at home. Also, does the doctor answer your questions about how you can make healthful improvements in your lifestyle?

PROVIDER SPECIALTY DEFINITIONS

Allergy/ Immunology - The study, diagnosis and treatment of unusual sensitivities to substances found in the environment.

Anesthesiology - The use of medications and anesthetic agents to prevent or relieve pain associated with surgery or other treatment procedures.

Cardiology - The study, diagnosis and treatment of diseases and disorders involving the heart and blood vessels.

Cardiovascular / Thoracic Surgery - Surgical treatment of diseases and disorders of the chest, lungs, heart and blood vessels.

Certified Nurse Midwife - Is an Advanced Practice Nurse who has specialized education and training in both Nursing and Midwifery. CNM's function as primary healthcare providers for women and most often provide medical care for relatively healthy women, whose birth is considered uncomplicated and not "high risk."

Colon and Rectal Surgery - Surgical treatment of diseases and disorders of the large intestine.

Critical Care Medicine - The diagnosis and treatment of critically injured patients.

Dermatology - The study, diagnosis and treatment of skin disease.
